

This instruction will guide you to install the wireless printing capability from your laptop using the **UAWiFi** connection at the College of Law Library. During the installation or uninstallation process, you may need to enter the password for the administrator's account to continue.

Installation of Pharos printer

1. Double-click the "PrintsrvrIkonBlack_for_x64.exe" for black-and-white printer or the "PrintsrvrIkonColor_for_x64.exe" for color printer.
2. Click the "Next" button to start the installation process.
3. Click the "Finish" button when the installation process is successful.
4. After the installation, the "IkonBlack on PRINTSRVR.LAW.ARIZONA.EDU" printer or "IkonColor on PRINTSRVR.LAW.ARIZONA.EDU" printer is currently visible from the list of your available printers.

Uninstallation of Pharos printer

1. Go to Start → Applications, select "Pharos" and click "Uninstall Pharos."
2. Click "Next" and click "Select All" or click the check box for "Pharos Popups"
3. Click "Next" and follow the procedure to start the uninstallation process.

Note: Pharos printer does not work with **UAPublic** and **UAVoiP** connections.
